I am Carman, I read mr Harney's book some time ago and it was indeed a priviledge and honour to read a book so earnest. I say this because it is so rare to in our world today to find others who can see the truth in the world today.

I look at your site every now and then to update on the news in your part of the world.

1 Well i don't know what i can do to help, I live a whole world away but i most certainly support your struggle and recognise the urgent nature of the work you people are doing.

My husband and i are members of the Soil & health Assoc. NZ .. the green party and NZ tree crops assoc. We are trying to raise awareness of the importance to be mindful of healthy earth, healthy soil, healthy food healthy people.

na reira ... kia kaha e koro ma, e kui ma  
therefor respected ones, stay strong in your resolve
